## News Release

### For Immediate Release

### **UNDERGROUND TOOLS, INC., COMPREHENSIVE PRODUCT LINE AT UCT 2011**

**LINO LAKES, Minn.** – Underground Tools, Inc. will be displaying one of the industries most comprehensive selections of trencher and horizontal directional drilling ground engaging parts at UCT 2011. UTI offers a complete line of parts and components for nearly all models of trenchers, drill rigs and backhoes.

Underground Tools, Inc. features premium quality directional drilling pipe for nearly every make and model of drill rig on the market. UTI's drill pipe is readily available, and fits drill rig sizes from mini through maxi. Underground Tools drill pipe is made from top quality materials, with careful consideration given to precise threaded connections

Underground Tools' HDD tooling selection includes reamers, bits and sonde housings. UTI's sonde housing features a 3/4-inch thick access door that provides superior protection for valuable electronics. The housing is as much as 33-percent thicker than comparable units and features a slightly larger body diameter for greater wear resistance and durability. The housing incorporates a 7-hole Vermeer® pattern that is compatible with UTI pilot bits, including UTI Gold Series bits or Vermeer® pilot bits. Custom adapters allow the housing to be used with all makes and models of drill rigs.

UTI's trencher parts include trencher chains, trencher sprockets & boom parts for pedestrian machines to the largest track machines. UTI also manufactures a comprehensive line of down-hole wear parts including carriage chain, connectors, plow blades, carbide cutters and more. All parts are made with the finest steel and carbide available and heat treated to ensure strength. Trencher parts from UTI are lab tested and field-proven for durability. They meet or exceed manufacturer's specifications and are available for all makes and models of trenchers.

All UTI products come with exclusive DirtSmart® technical service where questions are answered by the industry's most knowledgeable technical support team.
