News Release**UNDERGROUND TOOLS, INC., DISPLAYS COMPREHENSIVE PRODUCT LINE AT ICUEE****ICUEE BOOTH #224**

LINO LAKES, Minn. – Underground Tools, Inc. offers a wide range of wear parts and HDD equipment for the underground construction industry. Specializing in trencher and horizontal directional drilling ground engaging parts, UTI has a complete line of top quality components for nearly all models of trenchers, drill rigs and backhoes.

UTI's trencher parts include trencher chains, trencher sprockets & boom parts for pedestrian machines to the largest track machines. UTI also manufactures a comprehensive line of down-hole wear parts including carriage chain, connectors, drilling pipes, reamers, sonde housings and pilot bits for most makes and models.

Underground Tools, Inc. provides *DIRTSMART*[™] customer support where technical questions are answered by the industries most knowledgeable technical support team.
